

About Tracey

My name is Tracey Nunn and I am a qualified holistic therapist and Foot Health Practitioner.

I run my business with the philosophy that it is very important, in these busy times, to take a little time to relax and regenerate the body.

I provide a professional and relaxing treatment which will leave you feeling ready to face the busy world again.

The body is an amazing machine and as with all machines, the body needs care and attention to ensure it can work as efficiently as possible.

I use Neal's Yard Organic beauty products for my facials. The products are manufactured using high values of natural plants and herbs to ensure they are kind and gentle on the skin.

I have a range of products to suit differing skin types which allows me to tailor each treatment to an individual making your treatment special to you.
